TRILITE & ASTRALITE LIGHTING AND DISPLAY

Over the past years we have been providing lighting and power for the FPS Exhibition, during this time some exhibitors have experienced difficulties in creating a good cost effective way of lighting their stand.

The use of Trilite type trussing is an ideal way to brand your product at the same time as giving a means of mounting display lighting, don't forget if your product is not visible from a distance then your audience will just walk past!!!

We have put together prices for systems, similar to those we have provided in the past, and are offering a 10% discount for your lighting when ordering a Trilite or Astralite system too.

The above prices include delivery erection and removal after event
